

6 Points Of Understanding Truths

**Live by the words of Christ, the Word being life itself. Created souls are the sons of God.*

**Eliminate all judgement which is spiritually interfering with another souls freewill.
Then thereby spiritually interfering with your own freewill.*

**Trust in God. Everything seen, heard, and experienced, is to be.....period.
What is not in trust, is by one's own wiles, unto one's own judgements.*

**The eternal soul lives through eternal experiences, balancing life-goodnesses, and death-negativities.
The soul's heaven and hell are within; then manifesting the soul's heaven and hells current physical world.*

**Life flows from the spiritual world through and into the flesh world.
Life from your true spirit, flows through the mind-ego, developing ones own preferences-loves.*

**Salvation and death are daily. Time is an equation of the flesh, not of the spirit.
Time itself is an "instant" in eternity.*
